Sigiriya - "The Wonder of the World"

Sigiriya also known as the **Lion's Rock** is a rock fortress and a palace located in the Matale district of Sri Lanka. This ruin is surrounded by gardens, ponds and other structures. It is a site of historical and archaeological significance that is dominated by a massive column of granite approximately 180 m high. One of the most enduring enigmas surrounding Sigiriya is the purpose of its construction and the eventual fate of King Kashyapa. Some speculate that Sigiriya served as a symbol of the king's power and ambition, while others suggest it was a sanctuary shrouded in secrecy.

Site	Location	Year	Description
